eSAFETY SEMINARS

Our informatics teacher Seda ARIKAN gave an e-security seminar to our school students. In the seminar, students learned about the correct use of social media, the correct use of technology and cyberbullying.

Our school's informatics teacher gave e-safe training to our parents in groups. Parents learned about the correct use of the internet, technology addiction of children, and cyberbullying.

The school informatics teacher informed our teachers about internet security. The importance of integrating social media, correct use of the internet, cyber bullying, e security into our lessons was emphasized.
